

Better Broadband Scheme

The Northern Ireland Better Broadband Scheme has been developed by the UK government and is aimed at helping residents and businesses with broadband connections of less than 2Mbps by providing a subsidy of up to £350 to cover the cost of installation & commissioning of a new Broadband service.

As a leading provider of broadband solutions in Northern Ireland, Atlas can now offer a special bundle price for AirConnect customers who qualify under the scheme.

Priced at only £360 per year, with initial set up costs starting at just £240, AirConnect is ideal for those areas where Fibre Broadband is yet to reach.

The benefits of AirConnect:

- Increased business resilience
- Improved data storage & accessibility
- Faster uploads & downloads
- 24/7 local support

For more information on the Better Broadband Scheme, or to check if you are eligible, contact us on 028 9078 6868.
